Musical Journey Project Guide

Create a professional music portfolio website that includes the elements below.

Website Elements:

Home Page	Bio Page	Media Pages	Contact Page	Featured Content
Design a landing page that grabs the attention of visitors.	Write a short summary of your musical education, artistic journey, and achievements.	Create separate pages with embedded media of prior works such as: videos, albums, recordings, engravings, etc.	Create a page that allows for safe and secure contact via a contact form, email, or social media (do NOT share personal phone numbers or home addresses).	Create one new work and embed it on your website. – OR – Host a website launch event.

Choose a project for your featured piece of content:

 Create a video. It may be a music video, visual album, recorded performance, etc.	 Create an album or recording.	 Create an e-book of original compositions.	 Put on a launch event with a live performance — virtual or in person.
--	---	--	---

Create at least one piece of artwork to enhance your website:

	Create a featured image or illustration for your landing page.	Create a logo.	Design a unique website theme with specific colors and fonts.
